

Tampa Ronald McDonald House Renovation Campaign - ROOM FOR CHANGE

The Tampa Ronald McDonald House, built 19 years ago, needs a renovation. After caring for 5,984 families, this well-used and much-loved house needs a makeover!

Blake Casper of Caspers Company/CSC was the first to get this ball rolling. When he stopped by the Tampa House for a visit, he noticed that the kitchen was in drastic need of a facelift, and we agreed. He generously offered the funds and labor to re-do the kitchen, which turned out beautifully. Once the kitchen was done, it became apparent that the rest of the house needed a renovation. And so, the **Room for Change** campaign was launched.

In order to purchase new furniture, drapes, carpet, cabinets and updates for all of the bedrooms and common areas of the House, we need to raise \$250,000. Each year, 100 volunteers welcome more than 300 pediatric families to this House, while 350 home-made meals are lovingly prepared by friends in the community. Families cherish having a quiet place to call their home-away-from-home close to their child's bedside, gathering strength in the privacy of their bedroom to deal with the anxieties of their child's illness. They deserve to have the best that we can offer.

AVAILABLE			
Living Room	\$25,000	Relaxation Areas (1)	\$5,000
